in the Opera House on Frank evening.
Soptember 18.

As was explained a few mornings since, the match will be very much like the old fashtosed "spelling bee." Sides are chosen and a judge will spell words which the contestants will pronounce in turn. When a word is spelled to a contestant he will have only one trial to pronounce it, and if he should fail the judge will pronounce it correctly and give a new word to the next contestant.

BRIGHTER WEATHER.

Ford, who had a side-show in a tent, was arrested for showing without a license. The men who have a baby dolls on a frame, and charge for the privilege of throwing at them, giving prizes for each one knocked down; the men who charge for the privilege of throwing at them, giving prizes for each one knocked down; the men who charge for the privilege of throwing rings at a board stuck full of knives, or canes, as the cass may be, and give the thrower any one on which the ring alights, and all the other takirs, had all putil leense to the city. Nevertheless the Ghief and his men ordered them to stop, under penalty of arrest.

This action caused much unfavorable comment. It was said by lawyers that Capt. Smith had the law on his side, but nearly all of those who learned of his arbitrary act denounced it as a wanton imposition on the men and the association, who are compelled to return the money paid for privileges. The Chief's motive was past finding out. If he was actuated merely by a desire to enforce the laws impartially, it was thought strange that he did not begin on roome of the gambling dens in the city before tackling the small fry on the fair grounds. Some very earnest denunciation was induged in by parties interested.

Mr. A. T. McKelvey, a successful fruit-rower and well poeted agriculturist in general: "I doubt if a market can be found in Wheeling for all the fruit grown in the surrounding country this year. There nev r was such an abundance of fruit, pears especially. It is difficult to ship safely, and fruit has to be placed in the hands of dealers and disposed of at once when sent to a distance."

Mayor Grubb said last evening that he asked the City Solicitor's opinion of the games of chance on the ground, and was told that the law, strictly construed, forbade them; but as they were not of a demoralizing character, and did not harm, he saw no reason to stop them. The Mayor therefore took no action. The Chief's course was taken on his own responsibility, and for reasons which are variously conjectured, in all instances to his discredit.
